PROFILE

Computer Science student specializing in Software Engineering at Far Eastern University. I build thoughtful, organized web experiences with HTML, CSS, and JavaScript — from accessible UI components to full-stack apps with Node.js and SQLite. Live hosting has taught me to communicate clearly, adapt quickly, and keep people engaged.

SELECTED PROJECTS

Mini Krunch — Unofficial concept site for Konu's cereal cups: flavor slider, saved cart, store finder, English and Korean, three currencies. Live ↗

Little Feelings — Feelings journal with private accounts: Node.js + SQLite backend, hashed passwords, CSRF protection, photo uploads, JSON backups, and integration tests in CI. Live ↗

CSS Casebook — Learn-CSS-by-debugging platform: 48 cases, live editor, sandboxed previews, layout-based checking, and browser regression tests at five widths. Live ↗

Leemo Cocktails — Cocktail bar landing page with GSAP ScrollTrigger and Lenis: pinned horizontal menu, stacking panels, word-by-word reveals, and pointer effects.

Pugo · Salin · Pomodoro — Pixel-art savings pet game, Filipino word companion, and focus timer, built with vanilla JavaScript and localStorage. GitHub ↗

EXPERIENCE

2026 — Present	**Live Host** · Nexplay Host live selling and engagement sessions for partnered brands, build real-time audience interaction, and adjust engagement strategies using live metrics.
2025 — 2026	**Live Host / Operator** · Unicharm Managed product listings, carts, and customer interactions during live sessions while keeping workflows organized and tracking engagement analytics.
2023	**Service Crew** · McDonald's Delivered customer service, resolved concerns efficiently, and maintained accuracy in a fast-paced environment.

EDUCATION

2023 — Present	**BS Computer Science** Far Eastern University · Software Engineering
2021 — 2023	**Senior High School** Polytechnic University of the Philippines
2016 — 2021	**Junior High School** San Juan City Science High School

CERTIFICATIONS

Sep 2026	**Legacy Responsive Web Design V8** freeCodeCamp · ~300 hours
Mar 2026	**Project Management Ready** Project Management Institute
Jul 2025	**IT Specialist in Python** Pearson
2025 — 2026	**LinkedIn Learning** 6 courses: Agile, Android with Kotlin, Git with VS Code, Full Stack and Front End, ESG, Sustainability

SKILLS

Frontend	HTML, CSS, JavaScript, responsive design, accessibility
Programming	Python, Java, Kotlin, Node.js, SQLite, Git, VS Code
Workflow	Agile, project management, data analysis, research
Communication	Live hosting, product marketing, customer support, sales
AI-assisted	AI-assisted coding, prompt writing, UI ideation
